EDUCATION

Roorkee Institute of Technology (VMSBUTU) B.Tech in Computer Science and Engineering – 7.11 CGPA	2023 – 2027
Intermediate - [CBSE] Prakritik School	2022 - 2023
X, High School – [CBSE] School Of Creative Learning	2020 - 2021

EXPERIENCE

Prodesk IT - Software Developer Intern	Jul 2026 - Present — Remote
- Successfully delivered sprint features while meeting Agile sprint deadlines. - Developed and maintained a client-facing web application by implementing scalable features and bug fixes.	
Zestful Outreach Pvt. Ltd. - Software Developer Intern	Jul 2025 - Sept 2025 — Noida
- Forged a responsive React web application featuring enhanced UI/UX, achieving cross-browser compatibility, and boosting page load speeds by 30%, which met client usability requirements. - Engineered 10+ database-driven web solutions using WordPress and SQL integration, implementing PHP-based backend logic that reduced data retrieval time by 40% and improved system reliability.	
Arcoiris Logics - Web Development Intern (Part Time)	Jul 2025 - Sept 2025 — Remote
- Developed a mini web application with secure authentication, dashboard functionality, and form validation. Link - Built a responsive portfolio website using React with reusable components and multiple pages. Link - Designed an Instagram-inspired UI in Figma with reusable components and a consistent design system. Link	

PROJECTS

AI Interview Copilot — Gemini, RAG, ChromaDB, n8n, FastAPI – Built an AI interview assistant using Gemini, RAG, and ChromaDB to retrieve relevant resume and project context and generate grounded responses. – Implemented LLM tool calling with specialized tools for retrieving resume, project, and technical-skill information. – Developed a FastAPI backend and integrated n8n workflow automation for scheduled interview preparation and automated email delivery.	Aug 2026
Third-Eye :- AI-powered smart glasses designed to assist visually impaired individuals. Prototype Link – Implemented Passive Mode to answer user queries on demand using voice interaction. – Developed Active Mode for continuous environment narration, object identification, and navigation assistance. – Added Offline Mode to provide essential assistance without requiring an internet connection. – Integrated UPI payment functionality, enabling users to perform secure digital transactions through voice commands.	Apr 2026
Certificate Validator :- Built a MERN-based blockchain certificate validation platform using Ethereum Sepolia, SHA-256 hashing, JWT authentication, OCR-based image verification, RESTful APIs, and MongoDB for secure and tamper-proof certificate verification.	Deployment Link May 2026
Wanderlust :- Built a full-stack web application using MERN Stack. Used RESTful APIs, MVC Architecture, Express.js, MongoDB, Authentication, Authorization, Session Management, Protected Routes, Input Validation, Cloud Media Storage, Image Upload Handling, Error Handling, Async Middleware.	Deployment Link February 2026

ACHIEVEMENTS & CERTIFICATIONS

- Solved 450+ easy, medium, and hard problems on GeeksForGeeks, LeetCode, and other online judges. - Certification of Training in Java, Python, and C Programming by IIT Bombay. - Participated in 10+ Hackathons - Winner at 7 Hackathons - Technomax(2x, RIT), Trikon(2x, MIET), GeeksForGeeks(2x), IgnitionHack(GBU) - Achieved 75% in the AMCAT Examination. - Secured 82% in Diploma in Computer Application.(2023)	
--	--

TECHNICAL SKILLS

Languages: Java, C++, Python, JavaScript, SQL, HTML, CSS
Development: React, Node.js, Express, MongoDB, REST APIs, Git, Docker
AI/GenAI: Gemini API, RAG, ChromaDB, Embeddings, LLM Tool Calling, AI Agents, n8n
Familiarity: Tailwind, Firebase, Supabase, WordPress
Course Work: Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Compiler Design, Software Engineering, Distributed Systems, Web Development using MERN Stack.

POSITION OF RESPONSIBILITY

Google Gemini Student Ambassador — RIT (2026-2027)	Core Team Member — Google Developer Groups (RIT)
